New Rules for Global Finance

New Rules for Global Finance has established a coalition with issue-specific campaigns on bank legislation, commodity/food speculation and hedge funds, tax havens and shadow banking, and sovereign debt, to monitor more closely the work of the FSB and G20 on regulating global private financial flows. To support the coalition, it has expanded and updated the www.fsbwatch.org website as well as the www.new-rules.org website, and appointed “translators” to provide concise user-friendly summaries of FSB and other documents for advocacy purposes. DFI will help New Rules to facilitate meetings in April in Washington to plan a Global Financial Governance report, assessing the governance, accountability, transparency and impact on inclusive and sustainable development of the G20, IMF, World Bank and FSB; as well as a meeting in Basel in June to plan more specific activities on the FSB and G20.
