

DFI will partner with the Overseas Development Institute (ODI) in organising a conference financed by the Gates Foundation, to be held in Accra in March 2015. The conference will help to prepare the UN Financing for Development conference in Addis Ababa in July.

DFI's role will be to help mobilise senior developing country policymakers, and to organise plenary and technical sessions where senior developing country officials explain their financing strategies, as well as role-playing sessions demonstrating the complexities of mobilising suitable financing. DFI participated in the recent [CAPE conference at ODI](#) on 12-13 November during which preparatory meetings were held for the Accra conference.
