

Building on the successful launch of the Eastern and Southern Africa regional report on Commitment to Reducing Inequality in April at the IMF/WB Spring Meetings, DFI and its partners (the All Africa Conference of Churches, ACT-Church of Sweden, FELM-Finland, Norwegian Church Aid, Oxfam and Save the Children) have been continuing to roll out the report, as well as more detailed country profiles of 13 countries which present the practical policy options for reducing inequality in much more detail. The regional report was relaunched at the SADC People's Summit and Festival in Antsirabe, Madagascar on 16 August. The SADC presentation is available on request from DFI, and the regional report [here](#). Launches led by national anti-inequality coalitions have taken place in Malawi, Nepal, Tanzania, Zambia; and are planned soon in Angola, Ethiopia, Guatemala, Mozambique, Namibia, Somalia, South Sudan, Uganda and Zimbabwe.
