

The first set of [Country Profiles](#) has been uploaded for countries participating in the FPC CBP. These are presently available for Bolivia, Burkina Faso, The Gambia, Ghana, Nicaragua, Tanzania, Uganda, and Zambia, with more countries to follow. Each Profile summarises institutional arrangements and cooperating partners; latest FPC, investor perception and CSR data and analysis; FPC CBP support and country achievements; progress made and future priorities in building capacity; and a list of further reading. They may be downloaded via the [Where We Work page](#), and the [FPC Assessing Country Capacity](#) pages. Profiles will be updated on an ad hoc basis, subject to developments in each country, and announced on this page.
